

# Western Sierra Charter Schools TECHNOLOGY USE POLICY AND AGREEMENT

## Introduction

In today's educational environment, technology provides a vast spectrum of excellent educational tools that allow students to access a wide variety of information to supplement academic study, conduct research, enhance projects and much, much more. Accordingly, the internet is a place for the exchange of ideas, information, perspectives, and experiences that allows students to access a wide variety of information to supplement academic endeavors. Western Sierra Charter Schools (Mountain Home School, Glacier High School, and Endeavor Charter School), hereafter individually and collectively referred to as "Charter Schools" provides students with technology capable of accessing the internet to further their education and research. Technology, and thus the internet, provides access to people across the world which includes access to materials that do not have educational value in a school setting. As such, students may encounter information and ideas they may consider obscene, controversial, abusive, or otherwise offensive. Despite these risks, the Charter School believes that the value of the educational information available on the internet outweighs the risk that students may access information that is not consistent with educational principles, goals, and purposes.

Western Sierra Charter Schools has developed and adopted this Student Technology Use Agreement Policy ("Policy") to ensure that student access to technology and use of the internet is consistent with the educational goals and purposes of Western Sierra Charter Schools. This Policy sets forth student responsibilities and duties when technology issued and maintained by Western Sierra Charter Schools is employed to access and use the internet (applicable educational tools and productivity resources) regardless of setting and location. Western Sierra Charter Schools has deemed certain uses of the internet inappropriate for an educational setting and therefore not appropriate for use with Charter School equipment and resource networks. Western Sierra Charter Schools stresses that an inappropriate use does not always mean that the use is in itself "bad" or illegal, but only that the use does not further the educational goals and purposes of any Charter School.

In addition to the below-identified policies, Western Sierra Charter Schools will employ technology protection measures that protect against internet access (by both minors and adults) to visual depictions that are sexual in nature, obscene, child pornography, or harmful to minors. These measures may include, but are not limited to, installing a blocking system to block specific internet sites, setting internet browsers to block access to adult sites, using a filtering system that will filter all internet traffic, and report potential instances of misuse to administration and using a spam filter. Western Sierra Charter Schools offers parents access to additional support tools designed to monitor and block access to online content.

Students are reminded that their use of Charter School equipment and technology resources reflects upon the Charter School, and Students should guide their activities accordingly.

## Google Workspace for Education

Western Sierra Charter Schools (WSCS) uses Google Workspace for Education. Google Workspace for Education is a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more. These resources are used by tens of millions of students and teachers around the world. At Western Sierra Charter Schools, students will use their Google Workspace for Education accounts to complete assignments, communicate with their teachers, sign into their Chromebooks, and learn 21st-century digital citizenship skills. A summary of these tools and others can be found at: [https://workspace.google.com/terms/user\\_features.html](https://workspace.google.com/terms/user_features.html)

In addition, we also allow students to access certain other Google services with their Google Workspace for Education accounts. Specifically, your child may have access to the following “Additional Services”: YouTube, Blogger, Google Maps, Google Earth, App Maker, or Google Photos.

Google provides information about the information it collects, Google shares how they use said information, and Google discloses the information it collects from Google Workspace for Education accounts in its Google Workspace for Education Privacy Notice. You can read that notice online at: [https://workspace.google.com/terms/education\\_privacy.html](https://workspace.google.com/terms/education_privacy.html)

## Student Responsibilities

### **1. Use Limited to an Educational Purpose**

The Student acknowledges that access to the internet via Charter School technology and campus resource networks is intended to serve and pursue educational goals and purposes. The Student recognizes that he or she has a duty to use Charter School technology and campus resource networks only in a manner specified in the Policy.

#### a. Educational Purpose

“Educational purpose” means classroom activities, research in academic subjects, career or professional development activities, research in matters of civic importance or that further citizenship in a democratic society, Charter School-approved personal research activities, or other purposes as defined by the Charter School from time to time.

#### b. Inappropriate Use

An “inappropriate use” is one that is inconsistent with an educational purpose or that is in clear violation of Charter School policy.

## 2. Plagiarism and Academic Fraud (Cheating)

Researching information and incorporating that information into a Student's work is an acceptable educational use, but Students have an obligation to credit and acknowledge the author or the source. Accordingly, the Student acknowledges that plagiarism is inappropriate and unacceptable and is considered cheating. Plagiarism means the copying of a phrase, a sentence, or a longer passage from a source written by someone else and claiming the written work as the student's original work. Student agrees that when quoting from information obtained on the internet, he or she will acknowledge the source through quotation or any academically accepted form of notation.

The Teacher's first assumption will be that work a student turns in is the student's own and that what a student says is true. However, WSCS Teachers keep a close eye on academic fraud (cheating) and the consequences are severe. WSCS maintains what could be called a "Zero Tolerance" policy regarding cheating. For more examples of cheating refer to the Parent/Student Handbook. The consequences are as follows:

### 1st time caught cheating

- A. Student receives a Non-Compliance notice
- B. Student receives a failing grade on the assignment
- C. Student's semester grade in that course is automatically lowered by one grade

### 2nd time caught cheating

- A. Student is dis-enrolled from school with the Non-Compliance exit letter in CUM file stating reason
- B. Student receives a failing grade in the class in which he or she cheated

## 3. Copyright

Student agrees that he or she will not use Charter School technology or campus resource networks to download or print text, music, or pictures for the purpose of selling or giving the files to others unless specifically authorized by the Charter School and the owner of the copyrighted material.

## 4. Communication

Student agrees that he or she will use Charter School technology and internet resources or campus resource networks to communicate in a lawful, polite, and respectful way to others. This means that all of the following examples are not allowed:

- A. Student will not post on newsgroups, social media, or other message posting systems any communication containing profanity, racially disparaging remarks, or lewd and/or obscene language.
- B. Student will not at any time use speech that is not appropriate for an educational setting. Examples of speech that is not appropriate for an educational setting includes, but is not limited to, inflammatory language, profanity, personal attacks,

## **Western Sierra Charter Schools TECHNOLOGY USE POLICY AND AGREEMENT**

harassment, threats to do personal harm or other criminal activity, and language that is intended to be racially derogatory.

- C. Student will not make threats against others.
- D. Student will not reveal personal information about others.
- E. Student will not use email to send chain letters or “spam” email to a list of people or to an individual. Excessive email use may constitute grounds for suspecting misuse.
- F. Student will not place illegal information on the internet, nor will Student use the internet or technology in any way that violates federal, state, or local law.
- G. Student will not give out to any other internet user or post on the internet his or her name, address, or telephone number unless expressly authorized by the Charter School in writing.

In instances of misuse or suspected misuse, in addition to any disciplinary actions appropriate, the Student’s parent or guardian may be granted access to the Student’s email files.

### **5. Illegal, Dangerous Activities, and Hacking**

Student shall not use the internet to perform any illegal act or to help others perform illegal acts. Illegal acts include, but are not limited to, any activities in violation of local, state, and federal law. Student shall not access information designed to further criminal or dangerous activities. Such information includes, but is not limited to, information that if acted upon could cause damage, present a danger, or cause disruption to the Charter School, other students, or the community. Additionally, Student shall not damage, debilitate or disable computers, computer networks, or systems. Examples of this include, but are not limited to, intentional or overuse of electronic distribution or the spreading of computer viruses or other harmful programs. Student shall not engage in any unauthorized online access to other computers by means of hacking into other computers or downloading hacker tools. Some such examples include port scanners and password crackers. Student shall not use any web browser or other tools [e.g. VPN, Tor, dual boot, etc.] to evade restrictions or circumvent security settings.

### **6. Obscene Materials**

Student acknowledges that obscene materials do not further an educational purpose. Accordingly, Student shall not use the internet to access, upload, download, distribute, or transmit obscene materials or images. Obscene materials include, but are not limited to, materials that offend generally accepted social standards. This includes the access of or retrieval of any sexually explicit materials, and materials that are pornographic, abusive or threatening. Students are to exercise their best judgment when encountering sexually explicit or obscene materials. As a general rule, if the material could not be openly displayed in a classroom setting without violating generally accepted social standards, the material is obscene for purposes of this Policy and must not be accessed. Student further agrees that he or she will not access any internet site which requires the Student to state that he or she is eighteen years of age or older as a condition of accessing the site.

By using a school-owned Chromebook, computer, iPad, or applications, Student acknowledges this logging, monitoring, and supervision of their use.

Student acknowledges that computer equipment and internet access networks are owned by the Charter School and provided to Students for educational purposes. Student acknowledges that technology and equipment issued by The Charter School may be tracked using geo-location tracking technologies ("Geo Tracking"). The Charter School will provide staff to monitor and supervise all Student access to computer equipment, campus access networks and internet access networks. To facilitate monitoring of activities, computer screens will be positioned so that they are visible to the staff member supervising the Students. The Charter School also reserves the right to access stored computer records to assure compliance with this Policy. Student is aware that communication over Charter School-owned networks is not private and acknowledges that email and records of internet activities will be accessed under, but not limited to, the following circumstances:

- A. Routine system maintenance.
- B. General inspection or monitoring, with or without notice to Student.
- C. Specific review of individual files or monitoring of individual activity, with or without notice to Student, if there is suspicion that Student is engaging in inappropriate use.
